

## NHCRWA Fee

The NHCRWA Fee is a pass-through fee imposed by the North Harris County Regional Water Authority on all water pumped from wells within its jurisdiction. The District has no control over the NHCRWA fee, which is set by the North Harris County Regional Water Authority. The fee was first imposed in January 1, 2003 and it has been increased periodically since then. Commencing April 1, 2017, the North Harris County Regional Water Authority increased its fee to \$2.90 per 1,000 gallons of water. Information about the North Harris County Regional Water Authority can be found at [www.NHCRWA.com](http://www.NHCRWA.com).

Commencing in April, 2017, your bill will show an increase in the NHCRWA Fee to \$3.05 per 1,000 gallons, which includes a 5% mark-up to cover the fee on unbilled water used in District operations.
